Industrial Development Board

Second Session

Vienna, 17 April - 14 May 1968

PROPOSED ORGANIZATION OF THE WORK OF COMMITTEE I

1. Fifteen meetings are planned to be held by Committee I for reviewing the questions which have been entrusted to it.

2. The meetings of the Committee would be distributed among the items of the Agenda as follows:[1]

- Programme of Work for 1969 (ID/B/26) Programme of Work for 1968 (ID/B/20/Rev.1 and Add.I) Report on 1967 Activities (ID/B/22 and Add.I) Report of the International Symposium on Industrial Development (ID/B/21 and Corr.1 and Add.I)	8 meetings[2]
- Regular Programmes (Documents related specifically to 1969: ID/B/26 and Adds.I, II/Rev.1, III and IV)	3 meetings
- Budget and Voluntary Contributions (ID/B/29 and ID/B/30)	2 meetings
- Organizational Questions (ID/B/34)	2 meetings

3. As soon as the discussion of a question has been finished the Committee will prepare a report on the topic. This will be transmitted to the Plenary for consideration. After approval it will become part of the final report on that topic.

4. The Committee may also consider draft resolutions at the end of the discussions of the relevant topic. The draft resolutions will be transmitted upon approval of the Plenary, as part of the report of the Committee. Drafts on which no agreement has been reached by the Committee will be transmitted to the Plenary for discussion.

1/ The nomenclature of documents regarding items 4, 5 and 7 are more or less similar. This allows simultaneous consideration.

2/ The first four meetings would be devoted to a first reading of Part II of the document and by groups of activities; Part I would then follow. The four other meetings would be devoted to a second reading and adoption of the drafts of the report. It is suggested that the work proceed by considering the Programme of 1969 and referring to the corresponding sections of the documents for the years 1967 and 1968 and the Report of the Athens' Symposium.
